

**Interim Water Resource Plans for Victoria and South Australia intended to be included in the proposed Regulations**

The following Interim Water Resource Plans meet the definition of Interim Water Resource Plan pursuant to s242(1) of the Water Act 2007. Each instrument is an Interim Water Resource Plan only in so far as it relates to the relevant aspects of the criteria.

No.	Plan Name	Date Made/ Gazette reference	Status	Effect	Expiry Date (as IWRP)
<b>South Australian Murray Region</b>					
1	Water Allocation Plan for the Mallee Prescribed Wells Area	Made: 02/05/12	Interim water resource plan	Replaces the previous Mallee water allocation plan and provides new management arrangements for the use of water within the Mallee Prescribed Wells Area including licencing based on volume rather than irrigated area (Hectare equivalents (HaIE)). The plan offers more flexible transfer arrangements as well as new management areas with individual volumetric limits to protect the sustainability of the water resource.	02/05/2017
2	Water Allocation Plan for the Peake, Roby and Sherlock Prescribed Wells Area	Made: 02/03/11	Interim water resource plan	The plan manages the underground water resource of the Unconfined and Confined Aquifers so that they may continue to be available for the social, economic and environmental needs of current and future generations; provides flexibility in the way in which underground water resources are managed; maintains reasonable ability to access water in the Peake, Roby and Sherlock PWA; ensures there are no unacceptable impacts on the underground water resource or the productive capacity of land from the taking and use of water; and promotes efficient use of water.	02/03/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
<b>Victorian Murray</b>					
4	Bulk Entitlement (Omeo) Conversion Order 2008	Made: 02/06/08 Gazette: 12/06/08, G24, p1265	Interim water resource plan	Converts the East Gippsland Water Corporation's entitlement to take water from the waterway to supply water to the Omeo Water Supply System is to a bulk entitlement and sets out the conditions of the BE.	31/12/2014
5	Environmental Entitlement (River Murray –Environmental Water Reserve) 2010	Gazette: 27/01/10, (S36) p16	Interim water resource plan	This EE was repealed by the Environmental Entitlement (River Murray – NVIRP Stage 1) 2012, thus no longer requires consideration	
6	Environmental Entitlement (River Murray – NVIRP Stage 1) 2012	Made: 02/07/12 Gazette: 02/07/12 (S236)	Interim water resource plan	Repeals the Environmental Entitlement (River Murray – Environmental Water Reserve) 2010, which had zero volume, and grants the Water Holder a new environmental entitlement to the environment's share of water recovered in the Murray component of the GMID as part of NVIRP Stage 1.	02/07/2017
7	Boosey Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
8	Holland Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
9	Lima East Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
10	Lima Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
11	Axe Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
12	Back Creek (Campaspe) Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
13	Campaspe River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
14	Coliban River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
15	Emu Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
16	Five Mile Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
17	Jones Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
18	Little Coliban River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
19	Mclvor Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
20	Myrtle Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
21	Smith Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
22	Stockyard Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
23	Wild Duck Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
24	Acheron River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
25	Castle Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
26	Creightons Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
27	Delatite Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
28	Faithfulls Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
29	Howqua River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
30	Hughes Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
31	Jamieson River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
32	King Parrot Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
33	Rubicon River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
34	Seven Creeks Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
35	Sunday Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
36	Upper Goulburn Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
37	Yea River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
38	Back Creek (9 Mile) Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
39	Back Creek (Yackandandah)	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
40	Basin Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
41	Bay Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
42	Cherry Tree Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
43	Deep Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
44	Glenn Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
45	Hellhole Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
46	House Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
47	Kiewa East Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
48	Kiewa River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
49	Kinchington Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
50	Middle Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
51	Nine Mile Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
52	Running Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
53	Sheep Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
54	Yackandandah Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
55	Barkers Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
56	Bendigo Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
57	Bullarook Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
58	Campbells Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
59	Jim Crow Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
60	Lower Loddon Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
61	Pinchgut Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
62	Upper Bullock Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

<b>Eastern Mount Lofty Ranges</b>					
3	Water Allocation Plan for the Marne Saunders Prescribed Water Resources Area	Made: 18/01/10	Interim water resource plan	The plan guides the granting of licences and allocations to take and use prescribed water resources for licensed purposes, transfer of licences and water allocations and ongoing management of water allocations in prescribed water resource areas. In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
63	Upper Loddon River Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
64	Black Dog Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
65	Black Range Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
66	Boggy Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016
67	Fifteen Mile Creek Local Management Rules	Made: 01/12/11	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	01/12/2016

In addition, it guides the granting of permits for relevant water affecting activities.	18/01/2015
107	Bulk Entitlement (Wimmera and Glenelg Rivers - Wannon Water) Order 2010	Made: 26/10/10 Gazette: 29/10/10, S446, p22	Interim water resource plan	Grants Wannon Water's entitlement to water from the Wimmera-Mallee system on the conditions set out in the Order.	26/10/2015
108	Bulk Entitlement (Willaura, Elmhurst and Buangor systems - GWMWater) Conversion Order 2012	Made:28/04/12 Gazette: 03/05/12, G18, p911	Interim water resource plan	Converts all of GWMWater's entitlements to take water from the Willaura, Elmhurst and Buangor waterways to bulk entitlements on the conditions set out in the Order.	28/04/2017
109	Bulk Entitlement (Willaura system - Wannon Water) Conversion Order 2012	Made:28/04/12 Gazette: 03/05/12, G18, p916	Interim water resource plan	Converts all of Wannon Water's entitlements to take water from the Willaura, Elmhurst and Buangor waterways to bulk entitlements on the conditions set out in the Orders	28/04/2017
110	Wimmera and Glenelg Rivers Environmental Entitlement 2010	Made: 26/10/10 Gazette: 29/10/10, S 446, p48	Interim water resource plan	The environment Minister's entitlement to water from the Wimmera-Mallee system are allocated on the conditions set out in this Instrument	26/10/2015

<b>Groundwater</b>					
111	Lower Campaspe Valley Water Supply Protection Area (Groundwater) Order 2010	Made:15/06/10 Gazette: 01/07/10 (G26, p1443)	Interim water resource plan	Establishes the Lower Campaspe Valley Water Supply Protection Area.	15/06/2015
112	Declaration of Loddon Highlands Water Supply Protection Area (Groundwater) Order 2010	Made:25/06/10 Gazette: 08/07/10, G27, 1552	Interim water resource plan	Establishes the Loddon Highlands Water Supply Protection Area	25/06/2015
113	Permissible Consumptive Volume Groundwater Order 2011	Made: 04/07/11 Gazette: 14/07/11 (G28, p1639)	Interim water resource plan	Amalgamates all previous PCVs into a single Order, and allows for the issue of licences under section 51 of the Act required for certain pumping tests, and as a consequence of the Dairy Shed Water Licence Transition Program, and for managed aquifer recharge schemes (which will not result in any increase to the net volume of groundwater extracted).	04/07/2016
114	Upper Ovens Water Supply Protection Area Water Management Plan	Made: 11/01/12	Interim water resource plan	Sets out a management plan for the protection of both the groundwater and surface water resources of the Upper Ovens River water supply protection area. The objective of the management plan is to make sure that the water resources of the area are managed equitably and to ensure the long-term sustainability of those resources.	11/01/2017
115	Lower Ovens Groundwater Management Area Local Management Plan	Made: 20/08/12	Interim water resource plan	Under Action 4.6 of the Northern Region SWS, local management rules have been formally documented, adopted and published for all systems that do not require a management plan.	20/08/2017

				The plan ensures that groundwater resources in the Lower Ovens GMA are managed in an equitable and sustainable manner; taking into account the connectivity between groundwater and surface water resources and the benefit that groundwater provides to rural and urban communities during times of water shortage	
116	Lower Campaspe Valley WSPA Management Plan	Made: 17/10/12	Interim water resource plan	The Plan aims to provide security of access to existing users and protect the environment from over development of groundwater resources by supporting a cap on licence entitlement and placing restrictions on groundwater extractions when triggered. The Plan also enables groundwater users to better manage their licence entitlement by encouraging trade and describing how carryover can be utilised.	17/10/2017
117	Loddon Highlands WSPA Management Plan	Made: 21/11/12	Interim water resource plan	The Plan aims to provide security of access to authorised users and protect the environment by supporting a cap on licence entitlement and placing restrictions on groundwater extractions when triggered.  The Plan also enables licensed groundwater users to better manage their entitlement by providing trading opportunities and describing how carryover can be utilised.	21/11/2017
118	Carryover Declaration for Mid-Loddon Groundwater Management Area	Made: 13/03/12 Gazette 22/03/12 G12 p 609	Interim water resource plan	Allows holders of take and use licences for groundwater in the Loddon Highlands Water Supply Protection Area to carryover an amount of groundwater unused in a water season to a subsequent water season (30% max) and to specify the terms and conditions that are to apply to ensure amongst other things that any local impact of increased use can be managed.	13/03/2017

119	Carryover Declaration for Lower Campaspe Valley Water Supply Protection Area	Made: 17/10/12 Gazette: 25/10/12 G43 p2430	Interim water resource plan	Allows holders of take and use licences for groundwater in the Loddon Highlands Water Supply Protection Area to carryover an amount of groundwater unused in a water season to a subsequent water season (25% max) and to specify the terms and conditions that are to apply to ensure amongst other things that any local impact of increased use can be managed.	17/10/2017
120	Carryover Declaration for Loddon Highlands Water Supply Protection Area	Made: 21/11/12 Gazette 21/11/12 S389	Interim water resource plan	Allows holders of take and use licences for groundwater in the Loddon Highlands Water Supply Protection Area to carryover an amount of groundwater unused in a water season to a subsequent water season (15% max) and to specify the terms and conditions that are to apply to ensure amongst other things that any local impact of increased use can be managed.	21/11/2017
<b>General instruments applying to more than one WRP area</b>					
121	Determination of Water Entitlements to be Transferred to the Victorian Environmental Water Holder	Made: 28/06/11 Gazette: 29/06/11 (S206)		This determination has been reclassified as an amendment, and has been moved to attachment Bii.	
122	Notice of Amendments made to Bulk Entitlements and Environmental Entitlements for Commencement of Victorian Environmental Water Holder 2011	Made: 28/06/11 Gazette: 29/06/11 (S206)		This notice has been reclassified as an amendment, and has been moved to attachment Bii.	

123	Order declaring water systems in northern Victoria 2007	Made:19/06/07 Gazette: 21/06/07 G25 p1289	Interim water resource plan	Declares certain water systems in accordance with s6A of the <i>Water Act 1989</i> . This facilitated the NWI commitment to 'unbundle' water rights from land rights.	31/12/2014
124	Standard Water-Use Conditions	Made:20/06/07	Interim water resource plan	This determination applies standard water-use conditions to all water-use licences granted for use of water from water systems that are declared under section 6A of the Act, including water-use licences that are deemed to have been created as a result of declaration of a water system, and water-use licences granted after a water system has been declared ("new water-use licences"), as set out in the determination.	31/12/2014
125	Determination of water use objectives	Made: 20/06/07	Interim water resource plan	This determination sets out certain water use objectives to be applied to water licences.	31/12/2014
126	Directions on delivery entitlements	Made: 20/6/07	Interim water resource plan	The determination provides direction in relation to management of delivery entitlements by water service providers.	31/12/2014
127	Policies for Managing Take and Use Licences	Made: 07/09/09	Interim water resource plan	The purpose of this document is to establish written policies for the management of take and use licences.	31/12/2014
128	Northern Region Sustainable Water Strategy	Made: 09/11/09	Interim water resource plan	This Strategy is a benchmark document that: <ul style="list-style-type: none"> <li>• Sets out the challenges facing all water users, and integrated actions to meet these challenges.</li> <li>• Provides an innovative approach to climate change adaptation in water planning.</li> <li>• Provides a new framework for adaptive decision making for managing our environmental assets.</li> <li>• Sets out arrangements to integrate water planning across the boundaries of local councils, water corporations and catchment management authorities.</li> </ul>	31/12/2014

				<ul style="list-style-type: none"> <li>Provides a framework to assist in developing the Murray-Darling Basin Plan.</li> </ul>	
129	Western Region Sustainable Water Strategy	Made: 10/11/11	Interim water resource plan	The Western Region Sustainable Water Strategy identifies potential challenges for water management and opportunities to secure water resources for the next 50 years. It outlines policies and actions to ensure sustainable water supply and management over that period.	10/11/2016
130	Policies for Managing s76 Approvals	Made: 21/09/10	Interim water resource plan	Establishes written policies for the management of s76 approvals, which deal using a bore to dispose of matter underground (e.g. to dispose of drainage water, waste and for MAR)	21/09/2015
131	Policies for Managing Works Licences	Made: 19/10/10	Interim water resource plan	Establishes written policies for the management of works licences associated with take, use, conveyance, and storage of water from Victorian water systems (including both declared and undeclared systems)	19/10/2015
132	North East Sustainable Irrigation Action Plan	Made: 19/05/10	Interim water resource plan	The purpose of the SIAP is to bring together irrigation information and provide a regionally developed implementation planning document that guides Government investment in Natural Resource Management (NRM) implementation works and measures in the North East Catchment, with the ultimate purpose of improving on farm water use efficiency and minimising any negative effects of irrigation. The SIAP describes the implementation of the works and measures to achieve the broad strategic targets included in the North East Catchment Strategies. The NE SIAP provides detailed implementation targets of a 5 year timeframe from 2008 – 2013.	31/12/2013

133	Carryover for Water Shares in the Murray, Goulburn and Campaspe Water Systems (Declaration and Determination) 2010	Made: 25/06/2010 Gazette: 30/06/10 (S260)	Interim water resource plan	To allow water to be carried over, and determine the conditions for the allocation of water to take into account water carried over to a subsequent water season	25/06/2015
134	Carryover for Bulk Entitlements and Environmental Entitlements in the Murray, Goulburn and Campaspe Water Systems (Declaration and Determination) 2010	Made: 25/06/2010 Gazette: 30/06/10 (S260)	Interim water resource plan	To allow water to be carried over, and determine the conditions for the allocation of water to take into account water carried over to a subsequent water season	25/06/2015
135	Carryover for Water Shares in the Broken, Loddon and Bullarook Water Systems (Declaration and Determination) 2010	Made: 25/06/2010 Gazette: 30/06/10 (S260)	Interim water resource plan	To allow water to be carried over, and determine the conditions for the allocation of water to take into account water carried over to a subsequent water season	25/06/2015
136	Carryover for Bulk Entitlements and Environmental Entitlements in the Broken, Loddon and Bullarook Water Systems (Declaration and Determination) 2010	Made: 25/06/2010 Gazette: 30/06/10 (S260)	Interim water resource plan	To allow water to be carried over, and determine the conditions for the allocation of water to take into account water carried over to a subsequent water season	25/06/2015

137	Manual for Victoria's Salinity Accountability in the Murray-Darling Basin 2011	Approved by the Secretary of DSE, April 2011	Interim water resource plan	Guides Victoria in fulfilling its obligations under the Murray-Darling Basin Agreement and its Basin Salinity Management Strategy (2001-2015).	April 2016
138	SA Murray-Darling Basin NRM Plan	Made: 28/04/09	Interim water resource plan	The SA MDB NRM Plan assesses the current state and condition of the Region's natural resources, the current and likely future processes that threaten them, and consider opportunities for their better protection and management; sets long-term, 20-year targets for the desired state and condition of the Region's natural resources describes the broad strategies and actions required to achieve these targets; and communicates a shared vision and goals for the natural resources of the Region. More specifically to water, the plan sets out targets for: developing guidelines on water affecting activities; administering and enforcing such guidelines; developing water policies for water resources; developing, implementing and evaluating water allocation plans; monitoring water dependent ecosystems and water resource conditions; reporting; and establishing water protection zones.	31/12/2014
